**Dedicated protection for your delicate glasses**

Glasses are often the most delicate items in your dishwasher, which means they need special care. The upper basket in this dishwasher has soft rubber spikes to support and protect glasses. The SoftSpikes stabilise your glasses and mugs efficiently, preventing them from falling over and possibly breaking.

**At-a-glance check**

This dishwasher has a clever way to keep you fully up to date with the status of your dishes. Its beam-on-floor technology projects a red light onto the floor while the cycle is still in progress. And when everything is ready to unload, it switches to a green one. Simple, and effective.
