If you are looking for a mat with extra space for movement, this rug is perfect for you. Its size is larger than the standard, which allows you to perform broad movements without going over the edge of the mat. The surface is made of durable, high-quality "multi-spandex" material, which is optimized for sensors of various mouse models and sensitivity levels. The anti-slip natural rubber base keeps the rug from moving over the table. The stitched edges protect the mat from abrasion and increase durability. The dense surface of the mat prevents dust accumulation, allowing it to stay clean for a longer time. A neutral yet stylish print will serve as a nice table decoration.
