- Priključak za mikrofon od 3,5mm
- ili
- Igraći kontroler za konzolu s ulaznim priključkom od 3,5 mm

Immerse Yourself

Graphics are great, but audio is everything. In order to achieve victory, you need to rely on sound. From the position of your opponent to the cry for help from your teammates, the Trust Gaming GXT 4371 Ward will immerse you completely. Thanks to the 50mm drivers, in-line controls, flexible boom-mic and breathing fabric earpads, you have everything you need to win on any device.

Big Sound

The Ward uses two 50mm drivers to give you an audio experience unlike any other. These huge drivers have a range from 20 to 20,000 Hz, which means you will hear everything your opponent throws at you. From the thunderous bass of a distant explosion to the whistles of bullets flying by, the Trust GXT 4371 Ward has got you covered.

Be Heard

Team work is essential; make sure that you're heard. The Trust Ward is equipped with a flexible boom-mic, making sure your team hears your every command. And if you don't want to be heard for a while, fold the microphone away and mute it with the in-line controls. You can use the same in-line control to adjust the volume. You're in complete control.

Use It, Always

Thanks to the breathing earpads, you'll never want to take off this headset. It makes sure your ears stay cool, even if you use the Ward for hours on end. That's why it's so convenient that this headset is multiplatform so you can use it on any device with a 3.5mm headphone jack, like your game consoles. Plug it into any mobile device that uses this connection, or simply use the extension cord to connect it to your PC. The Ward takes care of your every need.
