1 Laser sensor

Dell Peripheral Manager

Dell Peripheral Manager software enables you to perform the following:

- Assign program shortcuts to device programmable buttons or keys through the Action tab.
- View device information such as firmware version and battery status through the Info tab.
- Upgrade the latest firmware updates on your devices.
- Pair additional devices through the RF USB dongle or directly to your computer through Bluetooth.

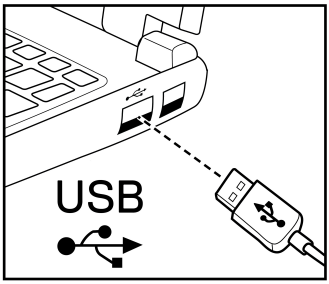
For more information, see *Dell Peripheral Manager User's Guide* on the product page at **www.dell.com/support**.

Setting up your mouse

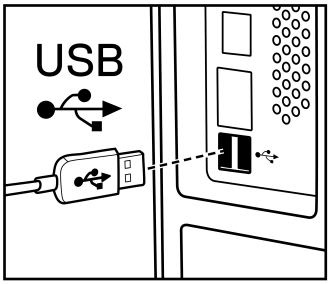
Connecting the mouse

Connect the mouse USB cable to an available USB A port on your laptop or desktop.

Laptop

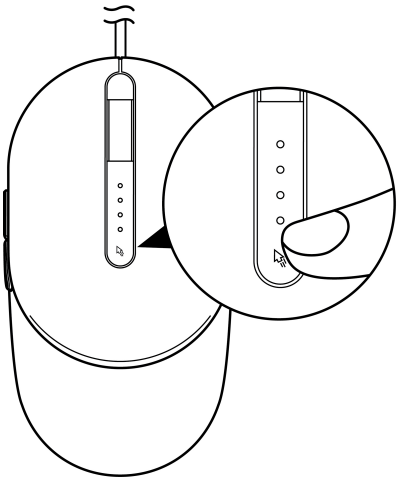


Desktop

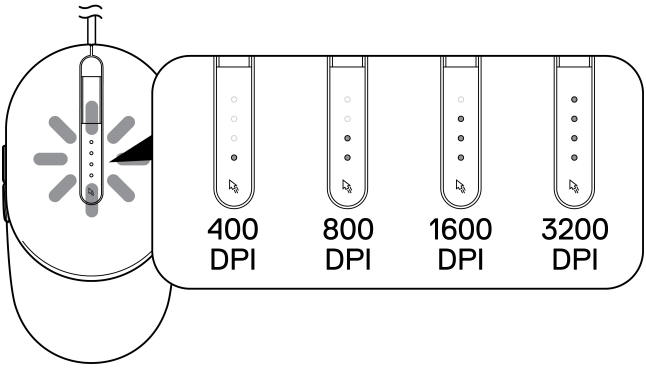


Adjusting the DPI

Press the DPI adjustment button repeatedly to toggle between mouse tracking resolutions.



DPI setting is indicated by the number of DPI indicator lights that are illuminated. The default four DPI settings and their indicator lights are as follows:



Specifications

Model number	MS3220
Connection type	Wired USB 2.0
Operating system	• Chrome • Windows XP • Windows Vista (test only) • Windows 7, 32/64-bit • Windows 8, 32/64-bit • Windows 10, 32/64-bit • Windows Server 2003 • Windows Server 2008; 2008 R2 • Windows Server 2012; 2012 R2 • Linux 6.x, Ubuntu, Neokylin • Free-DOS

Electrical

Operating voltage	DC 5 V, 0.1 A

Physical characteristics

Weight (with cable)	< 120 g (< 0.26 lb)
Dimensions:	
Length	142 mm (5.59 in.)
Width	91 mm (3.58 in.)
Height	46.5 mm (1.83 in.)

Environmental

Temperature:	
Operating	-10°C to 50°C (14°F to 122°F)
Storage	-40°C to 65°C (-40°F to 149°C)
Storage humidity	95% maximum relative humidity; non-condensing

Troubleshooting

Problems	Possible solutions
Mouse is not functioning	1 Connect the mouse USB cable to another USB port. A notification may appear indicating that the driver installation is in progress. If so, wait until a notification appears indicating that the drivers are installed before you use the mouse. 2 Restart your computer.
Resolving cursor issues	1 Connect the mouse USB cable to another USB port. A notification may appear indicating that the driver installation is in progress. If so, wait until a notification appears indicating that the drivers are installed before you use the mouse. 2 Ensure that the laser sensor is not obstructed or dirty. 3 Glass or other very smooth glossy surfaces are not suitable for the mouse sensor to capture movement. Using a dark colored fabric mouse pad can improve the tracking. 4 Save any data, close any open program(s), and then restart your laptop/desktop. When you do not have another mouse or touchscreen, you may have to hold the power button for at least 15 seconds to turn your laptop/desktop off. You may lose any unsaved data.
Resolving mouse button issues	1 Ensure that there is nothing preventing the mouse buttons from moving. 2 Connect the mouse USB cable to another USB port. A notification may appear indicating that the driver installation is in progress. If so, wait until a notification appears indicating that the drivers are installed before you use the mouse. 3 Save any data, close any open program(s), and then restart your laptop/desktop. When you do not have another mouse or touchscreen, you may have to hold the power button for at least 15 seconds to turn your laptop/desktop off. You may lose any unsaved data. 4 In Dell Peripheral Manager, reset the side button actions to their factory defaults.

Solving a slow moving cursor

1. Ensure that the laser sensor is not obstructed or dirty.
2. Modify the mouse DPI setting.
3. Change the mouse settings to adjust the pointer speed.

   Click on the tab that matches the Operating System (OS) installed on your laptop/desktop and perform the steps within that section to change the settings.

   - In the **Search** box, type `main.cpl`.
   - Click or tap `main.cpl` in the list of programs.
   - Move the slider under **Select a Pointer Speed** to adjust the cursor speed to the desired level.
   - Click or tap **OK**.

Statutory Information

Warranty

Limited warranty and return policies

Dell-branded products carry a three-year limited hardware warranty. If purchased together with Dell system, it will follow the system warranty.

For U.S. customers:

This purchase and your use of this product are subject to Dell's end user agreement, which you can find at **Dell.com/terms**. This document contains a binding arbitration clause.

For European, Middle Eastern and African customers:

Dell-branded products that are sold and used are subject to applicable national consumer legal rights, the terms of any retailer sale agreement that you have entered into (which will apply between you and the retailer) and Dell's end user contract terms.

Dell may also provide an additional hardware warranty – full details of the Dell end user contract and warranty terms can be found by going to **Dell.com/terms**, selecting your country from the list at the bottom of the "home" page and then clicking the "terms and conditions" link for the end user terms or the "support" link for the warranty terms.

For non-U.S. customers:

Dell-branded products that are sold and used are subject to applicable national consumer legal rights, the terms of any retailer sale agreement that you have entered into (which will apply between you and the retailer) and Dell's warranty terms. Dell may also provide an additional hardware warranty – full details of Dell's warranty terms can be found by going to
Dell.com, selecting your country from the list at the bottom of the "home" page and then clicking the "terms and conditions" link or the "support" link for the warranty terms.
