BALI The essence of design, safety, and technology for your comfort in the bathroom

BALI is a wall-mounted fan heater for the bathroom, designed to ensure the utmost safety.

Because your peace of mind is paramount to Radialight; its all-metal, powder-coated body assures robustness and the greatest protection against overheating.

Its compact size and IP24 level of protection against moisture mean that it can be easily installed in even the smallest bathroom. BALI will be your greatest ally when you wake up and feel its warmth, even on the coldest of winter days. Our research delivers you a smart product that helps save, for a more sustainable planet.

BALI's sophisticated electronic functions, which conform to the 2018 EU ECODESIGN directive for energy-related products, help you to limit energy consumption, because BALI adapts to your lifestyle, giving you only as much heat as you need, when you need it.

Heating Style

BALI is powerful and suitable for heating bathrooms of any size.

It intelligently modulates heat emission, to give you the comfort you want. You can view the temperature on the LCD display and set it precisely. This will achieve wellness beyond compare, which remains even and constant, for as long as you decide to use it. The front air outlet facilitates heat distribution, and in just a few minutes you will have a comfortable bathroom, even in the most freezing climates.

Controls

A: ON-OFF switch

B: + and - selection keys

C: Temperature setting display

D: Operating mode selection:
    COMFORT, PROGRAMMING, BOOST, ANTI-FREEZE

E: Current operating mode display

F: ON/OFF indicator

G: Led light

Functions

- Electronic thermostat with ambient temperature setting display;
- Automatic consumption modulation, in keeping with the temperature setting;
- Weekly programming, fitting BALI into your lifestyle;
- TURBO function, for utmost comfort in the shortest possible time;
- Window open alarm that switches the product off to avoid wasting energy;
- Removable, washable filter that traps dust and prevents it from being circulated further, for cleaner air.

BALI model in white color

Tecnical Data

MODEL	BALI
