Gaming mouse pads

MAIN 313, MAIN 315, MAIN 319 GAMING MOUSE PADS

These Lorgar gaming mousepads will change the way you feel movement. We created the Main High-Speed series for you to be faster than your opponents, and that's not the only advantage. The super glide surface was made possible thanks to the special low-resistance fibres – and it feels like the mouse is flying. Thick 3mm foam with a double-stitched edge provides excellent comfort and durability. The anti-slip rubber base won't go anywhere unless you really want to. Don't worry about compatibility: every sensor works fine with these pads.

This series is available in three sizes: medium, large, and extra large. Choose the one to your liking, and go get some frags!

SUPERIOR GLIDE SURFACE

Crafted by the best engineers in the industry, the smooth, low-resistance fibres will make your mouse lightning fast. Super glide surface also ensures excellent manoeuvrability of the controller.

ANTI-SLIP RUBBER BASE

The superior anti-slip rubber base is as good as glue. It is embossed with the Lorgar logo – gives at least +5 points to your skill. With the total pad thickness of 3mm, you'll be extra comfy.

DOUBLE-STITCHED EDGES

The edge is double-stitched with purple and black thread.
Durable, soft, looks amazing.
