Gaming mouse pads

MAIN 323, MAIN 325, MAIN 329 GAMING MOUSE PADS

Here comes the game changer. The Lorgar Main Precision Control series are mousepads that'll make your movement rapid and deadly accurate. The high-resistance surface is made of special thermoplastic fibres with tiny uniform bumps – the mouse will stop dead in its tracks. Thick 3mm foam with a double-stitched edge offers extra durability and comfort. The anti-slip rubber base will help the pad to stay precisely where you put it. No worries about compatibility: every sensor works perfectly with this type of surface.

These pads are available in three sizes: medium, large, and extra large. Get one and show 'em some surgical precision!

DOUBLE-STITCHED EDGES

The edge is double-stitched with black and red thread to keep your deadly accuracy low profile. Also, it is indeed durable.
