# IRIScan™ Desk 5

## Your documents in a blink!

Scan any type of document or books - Contracts, invoices, receipts, bills, plans, newspapers, magazines without cutting or damaging them!

This document camera scanner will help you save time and effort, and make it an easy job by scanning not only books or magazines but all types of content restrained in binders, spirals or files. Just flip the page and scan with the automatic page detection function.

Auto straighten & finger removal feature: Simply lay the book under the camera, open and hold down book edges with your fingertips. The page will be flattened while recognizing and cropping your fingers from the final result. Your file is perfectly straight and finger-free every time.

IRIScan Desk software also integrates a powerful OCR engine which converts scanned documents into searchable PDF and editable Texts, Word, Excel formats meaning you wont need to do long and boring retyping anymore!

Discover a new approach to the digitization of documents and books!

### Key features

- **Truly portable design:** Lightweight and with a flexible arm design it makes it ideal for use in home/office or while traveling
- **USB Powered** Plug and play, no need for external power adapter.
- **One click scanning:** It just takes a few seconds to complete the scanning process.
- **Self timer shooter:** Automatically scan after setting the shooting interval time to 3/5 or 7 seconds. It's a real time saver for scanning larger volumes of files and documents.
- **Automatic detection** of documents: just place any document on the scanning mat and it will be automatically detected and cropped.
- **Digitize Books** in a blink and export to an .Epub or .PDF format before reading them directly in your favorite electronic reader:
  - Auto page-turn detection sensor
  - Book curve image-flattening technology
  - Erase finger from image function
  - Front and back cover detection
- **Exceptional Image Quality** capture tiny details and the smallest text from any paper materials
- **Advanced image processing**
  - Automatic De-skewing and Cropping
  - Automatic edge filling of damaged document
