Water heaters in flat body

Wi-Fi control is a new level of comfort and the ability to reduce energy costs. Now you can control the settings, set a schedule, select the heating mode, or turn on the Bacteria Stop function, which will prevent the formation of harmful microorganisms in the water.

MXM WiFi EEC

Wi-Fi control for even more comfort

For more convenience, control the water heater from anywhere via Wi-Fi using mobile device. Adjust the operation of the device to your habits and get hot water for a specific time. All communications are carried out using the existing Wi-Fi network in the house. (MXM WiFi series are equipped with a USB-connector, AZR WiFi series are equipped with a built in Wi-Fi)

Economy Mode

Thanks to the Economy mode, the device will only work when it is really necessary and save energy costs. For more convenience, control the water heater remotely via Wi-Fi.

Anti-frost mode

The "Anti-frost" mode activates to heat the water to a safe temperature for the water heater when the temperature inside the device drops below +4 °C.

X-Heat

Dry tubular heating elements «X-Heat»

A unique technology in which the heating elements do not come into contact with water. Allows you to extend their service life and, as a result, the service life of the water heater.

Universal installation

Electrolux water heaters can be installed both vertically and horizontally, which allows them to be placed even in confined spaces.
