As of 2023

Product Highlights

Limitless Performance for Unparalleled Productivity

With 11th Gen Intel® Core™ processor options, the Portégé X30L-J delivers a performance boost and enhanced efficiency afforded by Intel's all-new 10nm processor architecture. Configurable to up to 32GB of dual-channel memory and reinforced with ultra-fast SSD storage (up to 1TB), Wi-Fi 6[2] and Thunderbolt™ 4, the Portégé X30L-J offers enduring performance for making short work of even the most complex tasks.

Next-Level Connectivity

Beyond its ultrafast USB 4.0 Type-C™ ports with Thunderbolt™ 4 functionality, the Portégé X30L-J features a mix of full-size ports, including ethernet, HDMI and USB-A (with Sleep & Charge) for seamless, adapter-free wired connectivity. Dynabook offers docking solutions that seamlessly connect multiple external displays, as well as a variety of other USB and USB-C accessories with a single cable connection.

Unbelievably Lightweight

From the office, the field or home, the hyper-light Portégé X30L-J was engineered to deliver unrelenting performance from literally anywhere. With a thin and light, mystic blue, magnesium alloy chassis, it's not only stylish but weighs at just 906 grams[1].

Seriously Secure

As a secured-core PC featuring a mix of hardware, firmware, software and identity protection technologies, the Portégé X30L-J is among the most secure Windows PCs in the world. Dynabook is the only major laptop brand that writes its own BIOS, providing an incredibly secure foundation. Further bolstering security, it is also equipped with fingerprint biometric and face authentication via the optional IR Webcam.

Keeping You and Your Work Hidden

The Portégé X30L-J keeps you and your data protected from unwanted viewers. Equipped with a webcam cover, privacy is just a flick of the finger away, while the optional Dynamic Privacy Display limits screen viewability to just you, when activated.

Lighter Than Light, Stronger Than Strong

The Portégé X30L-J was engineered to pass MIL-STD-810G standard testing methodology for strength and durability. The laptop leader also conducts Highly Accelerated Life Test (HALT) and other stress tests across the chassis, hinge, keyboard and ports of these laptops to deliver the perfect blend of rigidity and flexibility within these lightweight designs.

Power For The Workday and Beyond

The Portégé X30L-J delivers premium acoustics with its stereo speakers with Dolby Atmos Sound Enhancement for quality video presentations and online meetings. With a backlit keyboard and a Precision TouchPad that comes with fingerprint reader, professionals are treated to an all-rounded ergonomic user experience to power productivity and efficiency through comfort and convenience.

1. Weight – Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected.
2. Wi-Fi 6 – Wi-Fi 6 (802.11ax) WFA certification is not yet available. Intel® Wi-Fi 6 AX200 Module will be delivered as a pre- certified solution.

*Battery Life Rating – Battery life rating based on MobileMark™ 2014 running Windows 10. MobileMark is a trademark of Business Applications Performance Corporation.
