3

FEATURES

ALUMINUM STRUCTURE

An aluminum structure serves as the skeleton of 700M EVO eSPORTS, creating a lightweight and durable build that allows you to react quickly to in-game challenges.

4

HOW TO SWITCH AND ADJUST THE PALM REST

700M EVO eSPORTS's unique design allows you to adjust not only the palm rest's height but also its positioning (forward/backward) without using any tool.

HOW TO SWITCH AND ADJUST THE PALM REST

To adjust the palm rest's position, gently hold down the clip and then slide the palm rest backward or forward until you reach the desired position. To switch to the second palm rest, slide the palm rest backward until it gets off the structure and gently push the palm rest you want to use forward until it becomes mounted on the structure.

5

PALM REST HEIGHT ADJUSTMENT

To support your palm better, the arched frame can be raised by rotating the knob.

FIRE BUTTON

Designed to allow easy access to additional functions, this button is ideal for quickly accessing secondary weapons or skills.

45° SNIPER BUTTON

This button's 45° inclination allows the user to press it without moving the mouse, a design created especially for the low-DPI sniper mode.

6

AERO-DYNAMICAL SYSTEM

The body of the mouse follows aerodynamical principles to guarantee an airflow that keeps your hand cool.

7

WEIGHT ADJUSTMENT

4 x 4g weights

RGB BACKLIGHT WITH DPI INDICATOR

Choose 1 out of 16.8 million colors and set a unique color to each profile, while the DPI indicator tells you which DPI level you are using.

8

UIX™

BRING COUGAR'S MACRO ARSENAL WITH YOU

In order to minimize the time you spend recording macros and maximizing the time you spend using them, COUGAR's Macro Arsenal allows you to record your macro once and use it again on another COUGAR UIX™ compatible device, or export individual macros to share with your friends. Enjoy your gaming sessions with this powerful software.
