# Ventum 200 Air

 ENDORFY

PC CASE

Think ~~outside~~  
*inside* the box.

The Endorfy Ventum 200 Air is a ~~man case~~ in black, built for special tasks in mind. It keeps your precious components cool and collected, the perforated front panel protecting them from dust — and thanks to the tempered-glass window, you can always sneak a peek inside to admire your pro cable management.

#### **Stratus 120 PWM fans**

Includes 4 powerful and durable Stratus fans with PWM speed control, co-developed with Synergy Cooling.

#### **Mesh front panel**

Fine mesh structure lets airflow in while keeping the dust out.

#### **Convenient dust filters**

Front steel mesh and magnetic dust filters on the top and bottom pop off easily for cleaning.

#### **Wide cooling compatibility**

Enough room for tall heatsinks up to 161 mm and large radiators up to 360 mm in front or 240 mm on top of the case.

#### **Compact form factor**

Shorter footprint that a regular tower saves valuable desk space.

#### **Dual-chamber layout**

Modern internal layout separates airflow zones and hides cables and storage from view.

#### **3 storage mounts**

Fit three drives, including one 3.5 inch HDD, in hidden mounts without blocking the airflow.
