Book Love Gone Digital

Is It a Stylish Notebook? Or a Modern Storage Device?

It's both! It's a great portable hard drive for fast and easy data transfer and safe storage in a stylish, classic notebook design. And because design is not only about good looks but also function, the bookmark is a sliding cover to protect the port.

Judge It by Its Cover: Designed for Perfect Protection

With the port covered, the D30 is perfectly protected against water splashes (IPX4 rated) and dirt. The special rhombus design not only looks good, but also helps to avoid scratches and fingerprints.
