Model: YY7862E

The term "product" in this document refers to the unit or its accessories.

CAUTION: To avoid deterioration of the water-resistant performance, make sure that the cap is closed completely when using the unit.

The nameplate and important information concerning safety are attached in the following locations:

- the inner surface of the cap on the rear side of the unit

Do not install the product in a confined space, such as a bookcase or built-in cabinet.

Do not expose the batteries (battery pack or batteries installed) to excessive heat, such as sunshine, fire or the like, for a long time.
Do not subject the batteries to extreme low temperature conditions that may result in overheating and thermal runaway.

Do not dismantle, open, or shred secondary batteries.

In the event of a secondary battery leaking, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.

Secondary batteries need to be charged before use. Always refer to the manufacturer's instructions or product manual for proper charging instructions.

After extended periods of storage, it may be necessary to charge and discharge the secondary batteries several times to obtain maximum performance.
Dispose of properly.

Do not expose the unit to naked flame sources (for example, lighted candles).

This unit has been tested and found to comply with the limits set out in the EMC regulation using a connection cable shorter than 3 m.

Reduction in the Use of Hazardous Substances in Electrical & Electronic Equipment (Applicable in Republic of India)

This product and its components, consumables, parts or spares comply with the hazardous substances restriction of India's E-Waste (Management) Rules. The maximum allowable concentrations of the restricted substances are 0.1% by weight in homogenous materials for Lead, Mercury, Hexavalent Chromium, Polybrominated Biphenyls (PBB) and Polybrominated Diphenyl Ethers (PBDE), and 0.01% by weight in homogenous materials for Cadmium, except for the exemptions specified in Schedule II of the aforesaid Rules.

This product has magnet(s) which may interfere with pacemakers, programmable shunt valves for hydrocephalus treatment, or other medical devices. Do not place this product close to persons who use such medical devices. Consult your doctor before using this product if you use any such medical device.

Never insert the USB plug when the main unit or charging cable is wet. If the USB plug is inserted while the main unit or charging cable is wet, a short circuit may occur due to liquid (tap water, seawater, soft drink, etc.) or foreign matter on the main unit or charging cable, and cause abnormal heat generation or malfunction.

Notes on waterproof and dustproof features
(Read before using the unit)

The supplied accessories are neither waterproof nor dustproof.

On waterproof and dustproof performance of the unit

The unit, with the cap fastened securely, has a waterproof specification of IPX7 as specified in "Degree of protection against water immersion" of the IEC60529 "Ingress Protection Rating (IP Code)", and a dustproof specification of IP6X as specified in "Degrees of protection against solid foreign objects".

- The supplied accessories and the connectors of this unit (USB) are neither waterproof nor dustproof. To reduce the risk of fires or electric shocks, do not expose the unit to water or droplets while using any connectors (USB).

Note that malfunctions as a result of water immersion or dust intrusion caused by misuse by the customer are not covered by the warranty.

To maintain waterproof and dustproof performance

Carefully note the precautions below to ensure proper use of the unit.

- The unit passes the drop test from 1.22 m on plywood of 5 cm thickness conforming to MIL-STD810H Method 516.8-Shock. However, this does not guarantee no damage, no breakdown, or waterproof and dustproof performance in all conditions. Deformation or damage from dropping the unit or subjecting it to mechanical shock may cause deterioration of the waterproof and dustproof performance.
- Do not pour high-temperature water or blow hot air from a hair dryer or any other appliance on the unit directly. Also never use the unit in a place subject to high temperatures, such as in a sauna or near a heat source.

CAUTION : Handle the cap with care. The cap plays a very important role in maintenance of the waterproof and dustproof performance. When using the unit, make sure that the cap is closed completely. When closing the cap, be careful not to allow foreign objects inside. If the cap is not closed completely the waterproof and dustproof performance may deteriorate and may cause a malfunction of the unit as a result of water or dust particles entering the unit.

Precautions

On placement

- To eliminate the risk of malfunctions, avoid the following locations when placing or leaving this unit.
 - A place subject to high temperatures, such as under direct sunlight or lighting equipment, near a heat source, or in a sauna
 - Inside a vehicle with the windows closed (especially in summertime)
 - A place exposed to hot air, such as from a hair dryer
- Place this unit on a flat, level surface. When placed on a sloped surface, the unit may fall over or fall off the surface due to its own vibration, resulting in injuries, malfunctions, or performance degradation.
- This unit is not anti-magnetic. Keep objects susceptible to magnetism (recorded tapes, watches, cash cards and credit cards with magnetic coding, etc.) away from the unit. When you carry around the unit, keep this in mind as well.

How to care for the unit

Although the fabric part of the unit has water repellent treatment applied, you can use the unit more comfortably and for a longer period of time by following the maintenance procedure below.

- If the surface of the unit gets dirty in the following cases, wash the unit with fresh water (tap water, etc.) promptly to remove the dirt. Leaving dirt on its surface may cause the fabric part or the passive radiator section to discolor or deteriorate, or the unit to malfunction.
Ex.
 - When salt, sand, etc. is stuck on the unit after using it on a beach, pool side, etc.
 - When the unit is stained with sweat or foreign substances (sunscreen, suntan oil, etc.)

Note

- If the surface of the unit gets dirty, do not use detergent, thinner, benzine, alcohol, etc. to clean the unit because it will affect the water repellent function of the fabric part of the unit.
- If sand grains, etc. enter the fabric or other part of the unit, remove them carefully. Never use a vacuum cleaner, etc. on the unit. It may cause damage of the speaker section or other part of the unit.

Other notes

- Do not use or leave the unit in an extremely cold or hot environment (temperature outside the range of 5 °C - 35 °C). If the unit is used or left in outside the above range, the unit may automatically stop to protect internal circuitry.
- Even if you do not intend to use the unit for a long time, charge the battery to its full capacity once every 6 months to maintain its performance.
- If you have any questions or problems concerning this unit that are not covered in this manual, please consult your nearest Sony dealer.

Trademarks

All other trademarks and registered trademarks are trademarks or registered trademarks of their respective holders. In this manual, ™ and ® marks are not specified.

Specifications

BLUETOOTH®

Frequency band
2.4 GHz band (2.400 0 GHz - 2.483 5 GHz)

General

Power
DC 5 V 3 A (using a commercially-available USB AC adaptor capable of feeding in 3.0 A) or, using built-in lithium-ion battery

Lithium-ion battery life
Approx. 12 hours*²
– Volume level: 25
– Sound: ULT on
Approx. 3 hours*²
– Volume level: 50 (MAX.)
– Sound: ULT on

Time required for charging the built-in rechargeable battery
Approx. 5 hours*^{1,3}

Operating temperatures
5 °C - 35 °C

Dimensions (including projecting parts and controls)
Approx. 206 mm × 77 mm × 76 mm (w/h/d)

Mass (including battery)
Approx. 650 g

Included items
Wireless Speaker (1)
USB Type-C® cable (USB-A to USB-C® / Max. 1.5 A)*⁴ (1)
Strap (1) (attached to the unit)
Documents (1 set)

- *¹ When connected to a USB AC adaptor that can supply an output current of 1.5 A
- *² The built-in battery life above is measured using our specified music source. Actual performance time may vary from the listed time due to the volume, songs played, surrounding temperature, and usage conditions.
- *³ Time required for the empty battery to be fully charged (100%) while the unit is powered off.
- *⁴ A charging cable exclusively designed for the unit. Do not use the cable for any other purposes.

System requirements for charging battery using USB

Using a commercially-available USB AC adaptor capable of delivering an output current of 1.5 A or 3.0 A*
(Use of a USB AC adaptor capable of delivering an output current of 3.0 A reduces the battery charging time.)

* When using a USB AC adaptor with an output current of 3.0 A, be sure to use a USB Type-C cable that conforms to the USB standard and supports an output current of 3.0 A.
The supplied USB cable supports an output current of up to 1.5 A.

Design and specifications are subject to change without notice.
