4 Port USB 3.0 Hub with Type C and Type A plug for more ways to connect your USB-A devices

The Manhattan 4-Port USB 3.0 Type-C / Type-A Combo Hub turns one of your device's USB ports into four USB-A ports, so you can easily connect a keyboard, mouse, flash drive and more. Devices that fit the USB 3.2 Gen 1 spec (formerly known as USB 3.0) can reach transfer speeds up to 5 Gbps for external storage, printing and more. The Hub's SuperSpeed ports are backward compatible to run the older USB versions 2.0 or even 1.1. You can also charge your phone or tablet since the Hub supplies up to 5 V / 0.9 A of power.

Versatile 2-in-1 USB-A and USB-C connection for many operating systems

Thanks to the versatile combination of USB-C and USB-A plugs, you can connect this hub to a maximum variety of USB host devices. Pick the connector that works with your PC, laptop, tablet, MacBook®, Chromebook™ and Surface®, and plug right in.

Sleek aluminum housing and bus power for connectivity you can take with you

This USB hub's durable aluminum case, compact size and bus power mean greater portability for you when you have to pack up and go. You don't have to worry about carrying an additional power supply, which makes the hub an ideal travel companion. Simply unplug it from your upstream device, disconnect your peripherals and put what you need in your laptop bag to be on your way.

Universal compatibility for easy installation

This universal USB 3.0 hub will work with a wide range of computers because it requires no additional software or drivers. It installs automatically when you connect it to your laptop or desktop so you can be up and running quickly. It also works with a range of operating systems such as Windows®, macOS®, Linux and Chrome OS, so it's multi-platform compatible.
