C008 Capless Sliding USB Flash Drive

Smart Sliding Button "Uncaps" New Possibilities

C008 USB Flash Drive

The sleek design features a sliding USB connector, which smoothly extends from the drive at the push of a thumb. The capless mechanical design eliminates the hassle of lost drive caps. The USB connector can be made ready for use with just one hand, for greater convenience when speed is a must.

Easy Thumb Activated Capless Design

The USB connector is concealed in the compact body, fully protected without the need for a drive cap. A simple thumb swipe forward makes it ready to use, and the reverse motion stows the connector for storage or travel.

Make It Yours

The C008 is conveniently designed with a strap hole so that one can easily loop a string through and connect to a keychain or a mobile phone.

Graceful and Minimalist Design

The matte texture body is scratchproof and dirt-repellent. The C008 comes in an elegant shape and in two stylish color schemes. The simple curves of this series make fashion more comfortable than ever.

Near universal compatibility

The list of C008-compatible devices goes on as far as the eye can see. PCs, tablets, smart TVs, in-car systems, game consoles, home entertainment systems, and more.
