INITIAL SET-UP

MAINS CONNECTION

Ensure that the mains voltage of your home corresponds to the operating voltage of the unit. Your unit is ready to be connected to a mains voltage of 5V DC adaptor.

AMPLIFIER CONNECTION(if required)

Whilst you can listen to your new turntable using the built in speakers you may wish to connect it to your existing Hi Fi system.Connect the audio plugs to the Line in put on your mixer or amplifier using an RCA cable(not supplied)
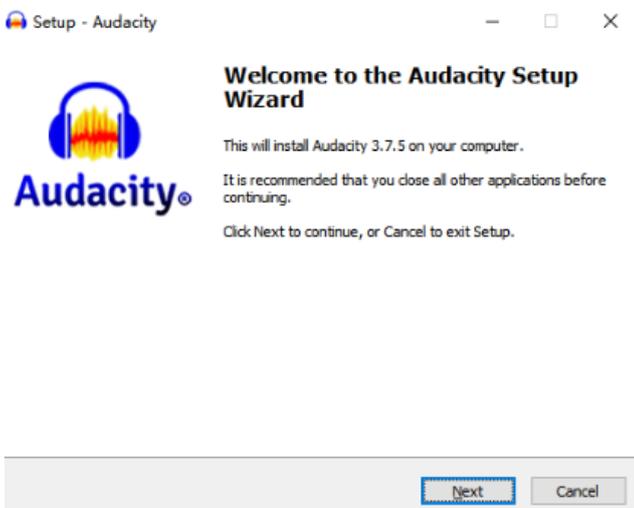

Playing a record

- Place the record of your choice on the turntable. If required, do not forget to place the adaptor on the record spindle.
- Choose the desired playing speed using the speed selection switch between 33 1/3, 45 and 78rpm.
- Turn on the Rotary Power Switch, note that this also controls volume.
- Release the tone arm lock.
- Raise the arm with your hand lightly.
- Place the stylus vertically over the first track of the record, the turntable will start turning automatically.
- Put down the stylus slowly on to the record to play.
- When a record comes to the end, the turntable will stop automatically if the auto-stop switch is in the ON position. If the switch is in the off position then it will keep revolving until the tone arm is returned to the tone arm rest.
- Lift up the tone arm and put it on the rest when finished.
- Replace the protective cap on the stylus and close the tone arm lock.
- Turn off power at mains.
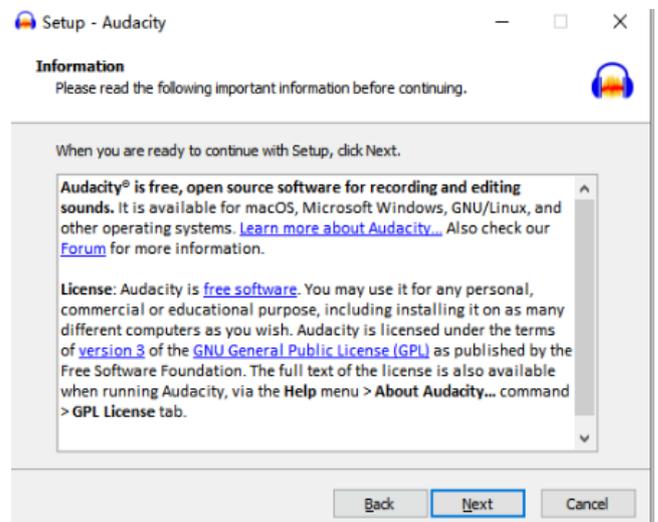

INSTALLING THE SOFTWARE

Visit www.audacityteam.org to download Audacity software, Please download without Muse hub and follow the instructions and the software will automatically install as follows:

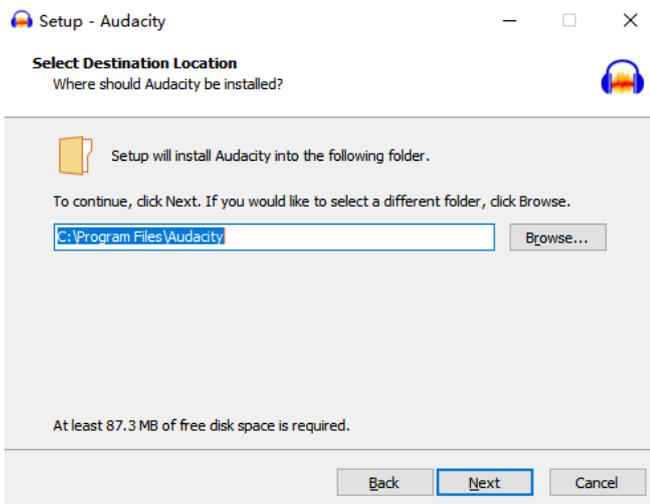

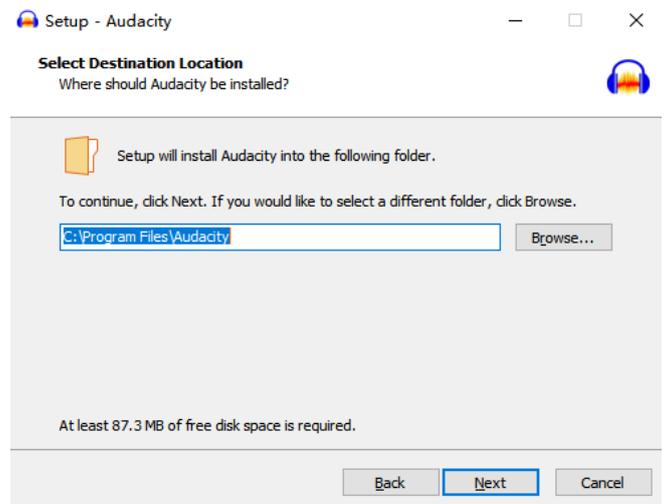

- Click'Next'

- Select'I accept'option then click'Next':

- Click'Next':

- Here either select another location or click'Next'to continue(recommended):

- Click Next'to continue:

- Click'Install'to continue:
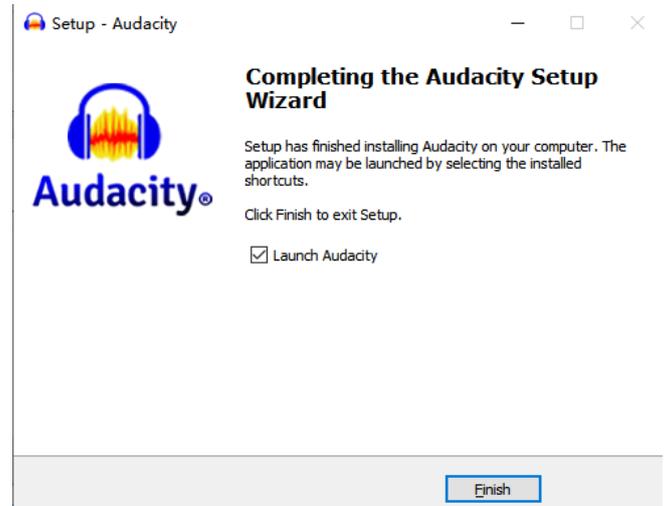

Setup - Audacity

Select Additional Tasks
Which additional tasks should be performed?

Select the additional tasks you would like Setup to perform while installing Audacity, then click Next.

Additional shortcuts:
☑ Create a desktop shortcut

☐ Reset Preferences

Back   Next   Cancel

Setup - Audacity

Ready to Install
Setup is now ready to begin installing Audacity on your computer.

Click Install to continue with the installation, or click Back if you want to review or change any settings.

Destination location:
    C:\Program Files\Audacity

Additional tasks:
    Additional shortcuts:
        Create a desktop shortcut

Back   Install   Cancel

- The software will start to install:

- Click on'Finish'to complete the installation:

Setup - Audacity

Installing
Please wait while Setup installs Audacity on your computer.

Extracting files...

Cancel

Setup - Audacity

Completing the Audacity Setup Wizard

Setup has finished installing Audacity on your computer. The application may be launched by selecting the installed shortcuts.

Click Finish to exit Setup.

☑ Launch Audacity

Audacity®

Finish

- Audacity should automatically start up,if not follow the next sequence:
- The Audacity icon will now be seen on the desktop,double click on it to start

   Audacity running, if an icon does not appear, go to the 'C' drive under My Computer', click on Program files' and then 'Audacity'. Right click on the 'orange ball wearing Headphones' icon and select Send to' then Desktop (create shortcut)'.

Using Audacity

- Plug the USB cable into the back of the unit and the other end into a USB port on your computer.
- Run the Audacity software by double clicking the Audacity icon.
- Before recording,click on Edit at the top of the main page;select Preferences at the bottom of the menu which will open Preferences.

- At the recording part of the window open the Device menu by using the down arrow on the right hand side. Select the USB 2.0 Device option from the menu. Also tick the box next to Software Play through (Play new track while recoding it).
- The lower box enables the number of recording channels to be set, 1 is Mono and 2 is Stereo, select the Stereo option.

- Click OK once the options have been selected:

Preferences window

Recording to computer using Audacity

- Start the record playing as described above, and press Record at the top of the Audacity window to start recording to the computer.
- Once recorded use the Transport controls at the top of the screen to, Go to start, Play, Record, Pause, Stop and Go to end of Wave form as below:

Pause   Play Stop   Go to Start   Go to End   Record

Waveform

- Use the file, Edit, View, Project, Generate, Effect and Analyse menus to Save, Export and Manipulate your music.
- NOTE: the blue wave form should sit in the Audacity window such that the peaks of it stop short of the top and bottom
- Before editing your music, the recorded waveform will need to be highlighted.
- To highlight your wave form, click with the left mouse button on the left hand side of the waveform (under the L+R controls) and the waveform will go darker.
- At this point the whole waveform can be edited. However if only a section of the waveform needs to be edited (or saved) the section required can be highlighted by placing the mouse over the beginning of the section hold the left button down and drag it over the area required and releasing it when the end of the desired section is reached. This darkened section will now be the only audio that will be edited.
- Alternatively click on the EDIT menu at the top left and then click on SELECT then choose from: All (whole wave form), Start to Cursor or Cursor to end.
- NOTE: after recording to the Computer, the USB cable may have to be removed from the USB port in order to enable playback later from the Computer.
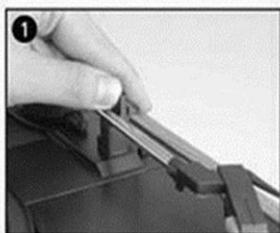

Exporting your music files (.WAV)

- Once you have recorded and edited your music, you will need to save your files to the computer. To do this, click on file and move down to Export as WAV tab.
- Click on this and you will promptly be asked for the file name of the music recorded which will be saved in the location shown. At this point either make a note of the folder where your music is saved or save it in a folder of your choice.
- This can either be an existing one or a new folder.

Exporting your music files (.Mp3)

- Once you have recorded and edited your music, you will need to save your files to the computer. To do this click on file and move down to Export as Mp3 tab.
- Click on this and you will promptly be asked for the file name of the music recorded which will be saved in the location shown. At this point either make at note of the folder where your music is saved or save it in a folder of your choice.
- This can be either an existing one or a new folder.
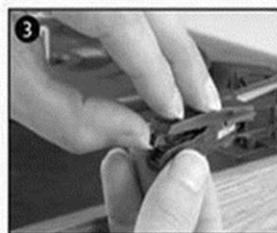

MAINTENANCE

## REPLACING THE STYLUS

-Refer to the figures 1-8

push the arm lock to release the tone-arm.

take off cap of the cartridge to expose the needle out.

separate the cartridge from the socket lightly.

take off the audio-line from the cartridges completely.

Insert the new stylus, insert the audio-line accordingly, and install the cartridge to the socket lightly.

NOTE: Please exercise extreme care whilst performing this operation so as to avoid the tone arm and audio line wires from any damage.

INSTALLING A NEW STYLUS CARTRIDGE
- Refer to the figures 5 & 6

NOTES

We advise you to clean your records with an anti-static cloth to gain maximum enjoyment from them and to make them last.

We would also point out that for the same reason your stylus should be replaced periodically (approximately every 250 hours)

Dust the stylus from time to time using a very soft brush dipped in alcohol (brushing from back to front of the cartridge)

WHEN TRANSPORTING YOUR RECORD PLAYER DO NOT FORGET TO:

● Replace the protective cap on the stylus.
● Lock the tone arm with the brace.
