Remarks:

- 1 Energy consumption per year, based on 160 drying cycles of the cotton eco programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used. The programme 'Cotton ECO' is the cotton standard programme. The programme 'ECO' used at full and partial load is the standard drying programme to which the information in the label and the fiche relates. This programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton.
