# Stereo earphones SEP-5

Meet our SEP-5 Stereo Earphones – designed to make every note, beat, and lyric feel real. With a focus on deep, resonant bass, these earphones bring out the richness in your favorite tracks, letting you experience music the way it was meant to sound.

Equipped with a digital Type C input, the SEP-5 is all about delivering a high-quality audio experience that feels authentic. The control block on the cable makes it easy to keep up with your tunes – adjust the volume, pause, skip to the next track – all without reaching for your device. And at 1.2 meters in length, the cable gives you enough freedom to move comfortably, whether you're commuting, working, or just chilling.

Comfort matters too, and we've got you covered with three sizes of soft eartips that fit just right and provide a snug, comfortable seal for long listening sessions. Powered by a 10mm drive unit, these earphones are small but mighty. You get immersive sound quality without the bulk.

The SEP-5 Stereo Earphones aren't just an accessory; they're an upgrade to how you hear and feel your music. Pop them in, turn up the volume, and let the world fade away.
