Kitchen Hood CHO-60CSD100T GB

The advanced VIVAX kitchen hood CHO-60CSD100T GB keeps noise and energy consumption at a low level of only 59 dB, with an energy efficiency class of D.

Control is possible with a simple touch of the finger thanks to the control system integrated into the appliance surface. This option, intended for inclined hoods of modern design, offers both convenience and an attractive appearance.

The appliance is equipped with a three-layer aluminum filter for efficient grease removal.

If the hood is not connected to an external air outlet, it is necessary to install a carbon filter that effectively neutralizes unpleasant odors, ensuring cleaner and fresher air in the room.

For indoor air circulation, the CHO-CPI00T filter must be used, which is ordered separately.
