OWS Ear Clips Headset

OnFlow 14 Black

The OnFlow 14 headset delivers wireless audio without isolation or discomfort. Its open-wear ear-clip design sits securely and lightly. This way, you can stay aware of your surroundings and enjoy clear sound and stable connectivity. The balanced clip structure distributes pressure evenly around the ear, preventing fatigue during long listening sessions. The OnFlow 14 is the perfect option for work, commuting, or outdoor activities.

Powered by BT 5.4, this headset maintains a reliable connection within a 10-meter range. The updated wireless protocol improves signal stability and energy efficiency. Each earbud features a 35 mAh battery, which provides up to 6–7 hours of music playback or at least 5 hours of talk time.

The compact 300 mAh charging case extends usage throughout the day and supports fast charging, with a full recharge taking approximately 1.5 hours. A short charging session enables practical playback time when you’re in a hurry. You get both consistent audio for music and calls and easy charging between meetings or workouts.

Weighing just 46.2 grams with the case, OnFlow 14 is light and comfortable to wear for extended periods. The PC + ABS construction with electroplated finishing gives the headset a durable surface great for everyday use. The materials deliver both structural strength and resistance, helping preserve appearance and performance over time.

With up to 4 months of standby time, the headset is ready anytime you need it for calls, playlists, or quick audio tasks on the move. Its power management system minimizes background energy consumption, so the headset retains charge even when not used frequently.

NEXT-GEN BT 5.4 CONNECTION

Built on BT 5.4 technology, the headset maintains a stable, energy-efficient connection within a 10-meter range. It minimizes signal drops and delivers smooth audio streaming and consistent call quality even in device-dense environments.

UP TO 7 HOURS OF CONTINUOUS PLAYBACK

Enjoy 6–7 hours of music or at least 5 hours of calling on a single charge. The power management system ensures reliable performance throughout the day without frequent recharging.

A series of overlapping geometric shapes, including parallelograms and rectangles, in shades of teal and light blue, arranged in a dynamic, layered pattern on the left side of the image.

DUAL MICROPHONE CALL CLARITY

The integrated dual-mic system captures voice accurately while reducing surrounding noise. This results in clearer conversations anywhere you are.

REAL-TIME BATTERY MONITORING

The integrated battery level indicator makes it easy to check the remaining power. Monitor charge status directly from your connected device and avoid unexpected shutdowns.

A series of cyan geometric shapes, including parallelograms and rectangles, arranged in a stepped, descending pattern on the left side of the image.

ENHANCED BASS PERFORMANCE

Engineered to deliver deeper low frequencies with balanced mids and highs. You get fuller, more dynamic sound across music, podcasts, and video content.

LIGHTWEIGHT OPEN-FIT STABILITY

The ergonomic ear-clip design distributes pressure evenly for a secure and barely noticeable fit. Suitable for extended wear without discomfort or in-ear fatigue.

FAST RECHARGE CAPABILITY

Supports fast charging with a full recharge in approximately 1.5 hours. A short charging session provides practical playback time when you need a quick power boost.
